PROFILE SUMMARY

A result-driven individual with an aspiring progressive career. I am looking forward to working in a dynamic and challenging environment that will allow me to utilize my information and technology skills, and contribute to the organization's growth and development. I can combine knowledge, skills, and experience to recognize opportunities or problems, that is, make choices, implement decisions, work well in culturally diversified environments, and perform well with or without supervision. Working in your organization will allow me to fully utilize my information and technology skills, communication skills, time management skills, and organizational skills.
